This year RCV will be utilizing the QwikCut Video & Analytics platform allowing coaches to store, share, & analyze game-film. This means coaches and players will be able to easily review games and assemble highlight reels. QwikCut will be providing the varsity coach and players with game stats helping them to train and prepare for matches in a more efficient way. No more parents struggling to do stats in the stands! Now the Qwikcut professional analysts will provide accurate and consistent stats from the RCV game films to assist the coach in elevating the team's performance.
